

JULY 2025 NEWSLETTER

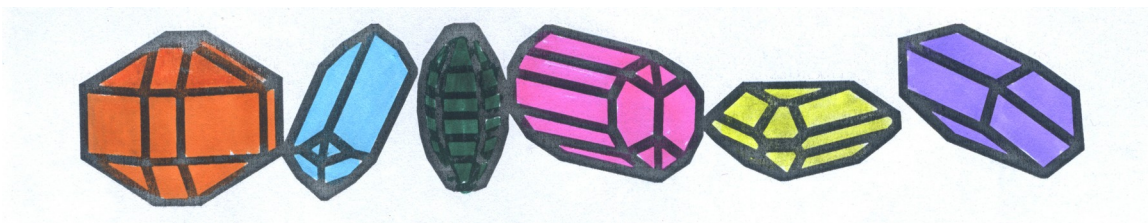

PRES NOTES.....BOB

This picnic is cold cuts so build your own and enjoy. Hopefully no mooskeettos. Bring a dish to pass. Lets get the motion on the Sunday meeting time taken care of and see how that will work. Several advantages.

VP NOTES.....INGA

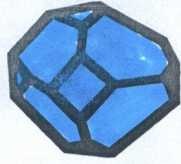

For the new meeting change time of Sundays -----**We have to vote on this now.** I was thinking of having Pebble pups at 1 as per usual. Planning meeting at 1:30. Program at 2. Out of there at 4. Do we want to stay downstairs or be at the upstairs one with the ramp door? I meet with the kids upstairs. At this time, both places are available.

For July, we were going to have a rock swap or club auction and craft day sort of event. Hornbrook is certainly big enough for all kinds of things. I was thinking of offering soapstone carving to the club. We haven't had that in a while. Dave's soapstone polishing, where the stones are rubbed on sandpaper has been offered at most picnics. If Dave wants to set that station up, that's fine. We could also have some rocks from the Herkimer dig for people to crack up. Dave has a geode to be cracked too.

Maybe we will see the families that use to come to the Ulster Rec center. They keep asking me to do that again. I won't, because setting up their tables is too hard and I promised my doctors that I would slow on down lifting stuff.

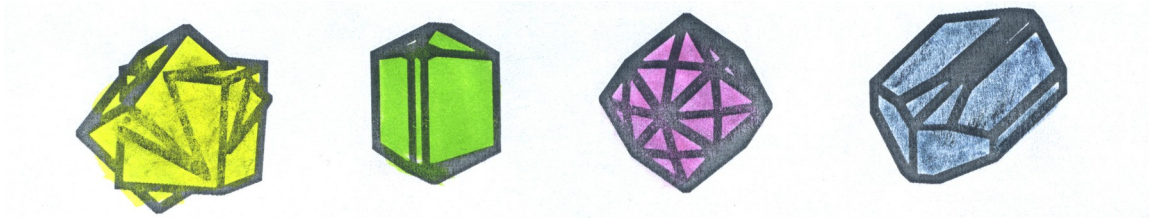

I have decided to postponed the clay making stuff until August at the Nichols picnic. The gold panning doesn't take that long. So both can be done. I will keep an eye on the mosquito situation in Nichols. I know they have lots of electrical outlets there to plug in the oven to bake the clay.

**rocks are
like potato
chips...
you can't
have just one.**

ACTIVITIES..... DAVE

Dave will bring a geode to break up, sandpaper polishing of soapstone, followed by engraving a simple shape, and mica constructs. I'll leave the diamond saw at home. If we start at 10am, instead of 12, I'll teach wire wrapping classes and I have 6 different ones to choose from. The 10am start must be announced to the entire club and I'll expect phone calls/text to choose which classes to teach. 305-395-9560

SUNSHINE LADY.....JOANN

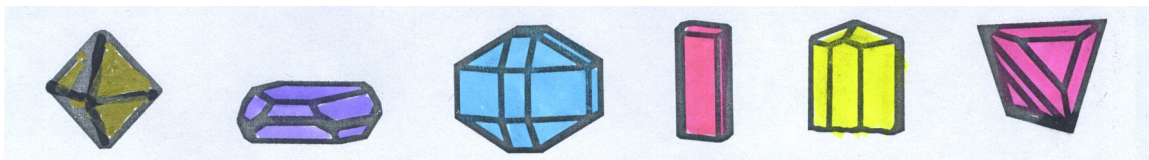

SUNSHINE REPORT

Hope everyone is well. If not, I hope you get well really soon.
It's Monday evening, the 14th. We had quite a thunder storm last night and today. Big, loud booms of thunder, lots of lightning and really fast rain and wind. Creeks overflowed their banks and lots of flooding in Bradford and Sullivan Counties.
More rain is supposed to be on the way. Stay safe, everyone.
Hope to see you at the picnic on Sunday, the 20th, at Hornbrook Park. Hopefully good weather and NO mosquitos. Good food, good friends, activities and a nice time to be out. I haven't talked to Janet, but hope she is doing much better, as is everyone else. Please keep her and all in your thoughts and prayers.
Anyone need any cheer? Please let me know and I'll do my best to take care of it. I know now there is a lot of allergies going around. Cheer up, everyone, better days are coming, I hope.

Take care and see you soon.

JoAnn

Lady Sunshine

The picnic will start at 12:00 pm and we will eat at 1::00 pm.
